

THE COUNCIL.

An Interesting Meeting of That Body.

THE MAYOR AND HIS MESSAGES.

The Saloons Are to be Closed at Midnight — The Cross Road People After a Franchise, Etc.

The City Council convened yesterday morning at 10 o'clock, all the members present and President Frankenstein in the chair.

After the reading of the minutes, the Mayor's veto on the ordinance calling for an election on the question of the closing of the saloons on Sunday was read by the City Clerk. It has already been published in THE TIMES. Councilman Summerland moved that the vote by which the ordinance was passed be reconsidered. The motion carrying, he moved that the action of the Mayor be sustained.

Councilman Bonsall moved to refer the matter to the special committee originally appointed to consider the question.

Councilman Wirsching, who was a member of the committee, objected to having the matter again put into his hands for consideration. He favored deciding the question immediately.

The City Attorney was summoned, and he stated that it is now too late to act under this ordinance. He suggested that the best way to get at the matter is to have a new ordinance drawn announcing the intention of the Council to call an election at some future date.

Councilman Bonsall withdrew his motion and Councilman Shafer moved that Councilman Summerland's motion be laid on the table. Councilman Wirsching objected to laying it on the table because it was not fair to the Mayor. If the Mayor's message is right it ought to be endorsed. Councilman Shafer said that to endorse the Mayor's message would be to admit the truth of his statement that the election is called to stiffen the backbone of the Council. Councilman Wirsching said that he does not need to have his backbone stiffened. Everybody knew how he stood on the matter. The motion to lay on the table was carried six to three, McLean, Summerland and Wirsching voting no.

Councilman Shafer then moved that the City Attorney be instructed to prepare an ordinance announcing that at some future date an election would be called to submit the question of Sunday closing to the people. The motion was carried, Councilmen McLean, Summerland and Wirsching voting no.

The ordinance fixing the tax levy at \$1.20 was read and quashed.

Various resolutions were read and either allowed or referred to the appropriate committees. President Frankenstein called the attention of the Supply Committee to the fact that a very poor quality of coal was being furnished to the City Hall.

The Chief of Police reported that \$30 has been collected during the month of July on saloon licenses, and that \$43 is still due on that month. The Police Clerk reported \$12.50 received from the two police courts.

The Water Overseer reported that he has cleaned the ditch of which the West Side people have complained, and that he has completed the Santiago Arroyo to pass the ditch and keep paper away. Councilman Van Dusen moved that the patrolman be paid the same as a policeman. The motion was carried.

The Water Overseer reported receipts of \$2936.50 for the sale of water for irrigation.

The City Tax Collector asked to be allowed to continue his present force of seven additional men through September. The request was granted.

The report of the City Engineer was read as follows:

I return petition, together with deeds of A. H. Judson and J. R. Johnston to the City of Los Angeles, to report the description in the same correct.

As per order I present herewith an ordinance of intention to pave the intersection of Broadway and that certain alley on the east side of Broadway between Fifth and Sixth streets.

On message of the Mayor returning demands No. 5166 for repaving junction of First and Spring streets, and No. 4053 for repaving the corner on the east side of Broadway at First street, I, as agent for the paving of gutter on Los Angeles street in front of Amestoy building, have to report as follows: The Mayor states that the necessity for the change was due to the fact that the intersections referred to were not properly laid at first, and suggests that the intersection be paved to see what was to be done for the defect. I find on investigation that the grades for the intersection of First and Spring were given in March, 1888. The intersection of Fourth and Broadway was laid in 1888.

The intersection of Commercial and Los Angeles which the Street Superintendent has laid, was first laid about March, 1888. The Amestoy curb had been laid at least six years ago.

It will require 7940 cubic yards to fill in lack of the levee between Kuhrt and Buena Vista-streets bridges in order to bring the bank up to its former grade.

In protest of B. Chadsey against the proposed grading of Hancock street south of Wilney avenue a majority of the frontage is represented.

In protest No. 745 of Hammett Reservoir, against the proposed grading of Bonsall avenue, I have to report as follows: The total frontage is 2632.3. Total in protest whose names appear on the assessment role, 1109.2.

On motion further proceedings in the grading of Bonsall avenue were ordered stopped. The ordinance declaring intention of paving Broadway at the intersection of the alley below Fifth street was referred to the Board of Public Works. The remainder of the report was adopted.

The report of the City Attorney was read and adopted. It was as follows:

In the matter of the breaks in the pipe of the Arroyo de Los Reyes, I would advise that whatever pipes are properly laid in said water course, the city keep them in repair and that the Clerk be instructed to send notice to property owners where the pipe has been laid to have it repaired within a certain number of days, according to specifications. I have drawn and presented herewith an ordinance providing for notice to the Citizens' Water Company as provided in their lease. I present herewith an ordinance declaring intention of paving Broadway at the intersection of the alley below Fifth street was referred to the Board of Public Works. The remainder of the report was adopted.

The report of the City Attorney was read and adopted. It was as follows:

The ordinance annulling the contract between the city and the Citizens' Water Company was passed. The matter of the Hancock road was referred to the Land Committee.

The Zanja Committee then made the following report: "On petition No. 734 your committee find a bond approved, a contract entered into and signed by the Mayor, W. H. Workman, as ordered by the Council of March, 1887. We recommend that the matter be referred to the City Attorney and the City Engineer." The report was adopted.

The Land Committee reported against the leasing of any land by the

city, and the report was adopted. The same committee reported advising that the question of the title of the city to the Arroyo tract be settled as soon as possible. This was adopted.

An invitation from the Park Commission to the Council to visit Westlake Park and take a ride in the boats next Monday evening was read and accepted.

The following message from the Mayor was then read:

I return upon the requisition of the Water Overseer to be authorized to have laid nine-inch sheet-iron pipe on Orange street, as this pipe has already been laid without any reservation. The Water Overseer did not deem it necessary to obtain the approval of the Mayor to enable him to order work done, and, therefore, he does it. I can properly discharge the duties of my office if the subject matter of the expenditure of the public money is to be taken out of my hands and the judgment of the heads of the various departments substituted therefor.

The contractor who did this work under the order of the Water Overseer without authority to do so, will look to the Water Overseer for his pay.

Respectfully, etc.

HENRY T. HAZARD,
Mayor.

A longer message from the Mayor, in which he requested to sign the contract for replacing the sheet-iron pipe leading to the Woolen Mills through the west part of the city with a permanent pipe of solid iron, was also read. The Mayor took the ground that the improvement is expensive and unnecessary. The matter of the pipe on Orange street was referred to the Zanja Committee. In the discussion over the question raised in the second message Councilman Bonsall said that the Mayor had evidently not informed himself thoroughly. The pipe is necessary. The present sheet-iron affair was broken in a number of places. Councilman Shafer asserted that not a cent of money has ever been spent by this Council to provide water for people outside the city. The report was placed on file and the City Clerk was authorized to sign the contract in behalf of the city.

The Committee on Public Buildings reported, advising that the school building on Ninth and Gates streets be accepted. Adopted.

A communication from the Board of Directors of the Library, asking for the use of the rooms now used by the school authorities, was read and referred to the Committee on Public Buildings.

The report of the Police Commission asking that saloons be closed after 12 o'clock, was read. President Frankenstein called Councilman Bonsall to the chair, took the floor and gave various reasons why action of some kind should be taken. Councilman Wirsching thought that no action should be taken until after November. He is opposed to passing resolutions for political purposes. Councilman Van Dusen referred to the matter as "political claptrap." President Frankenstein said that the use of that term was very unkind. For his part he is in favor of closing the saloons after 12 o'clock. Councilman Shafer said that no respectable man will visit a saloon after 12 o'clock. Councilman Hamilton is in favor of allowing the saloon-keeper his right from 12 o'clock to 5.

The motion to lay on the table was lost. Councilman Wirsching refused to lay on the table the election of Sunday closing to the people. The motion was carried, Councilmen McLean, Summerland and Wirsching voting no.

Councilman Shafer then moved that the City Attorney be instructed to prepare an ordinance announcing that at some future date an election would be called to submit the question of Sunday closing to the people. The motion was carried.

The Chief of Police reported that \$30 has been collected during the month of July on saloon licenses, and that \$43 is still due on that month. The Police Clerk reported \$12.50 received from the two police courts.

The report of the Water Overseer was read and approved. The Water Overseer reported that he has cleaned the ditch of which the West Side people have complained, and that he has completed the Santiago Arroyo to pass the ditch and keep paper away. Councilman Van Dusen moved that the patrolman be paid the same as a policeman. The motion was carried.

The Water Overseer reported receipts of \$2936.50 for the sale of water for irrigation.

The City Tax Collector asked to be allowed to continue his present force of seven additional men through September. The request was granted.

The report of the City Engineer was read as follows:

I return petition, together with deeds of A. H. Judson and J. R. Johnston to the City of Los Angeles, to report the description in the same correct.

As per order I present herewith an ordinance of intention to pave the intersection of Broadway and that certain alley on the east side of Broadway between Fifth and Sixth streets.

On message of the Mayor returning demands No. 5166 for repaving junction of First and Spring streets, and No. 4053 for repaving the corner on the east side of Broadway at First street, I, as agent for the paving of gutter on Los Angeles street in front of Amestoy building, have to report as follows: The Mayor states that the necessity for the change was due to the fact that the intersections referred to were not properly laid at first, and suggests that the intersection be paved to see what was to be done for the defect. I find on investigation that the grades for the intersection of First and Spring were given in March, 1888. The intersection of Fourth and Broadway was laid in 1888.

The intersection of Commercial and Los Angeles which the Street Superintendent has laid, was first laid about March, 1888. The Amestoy curb had been laid at least six years ago.

It will require 7940 cubic yards to fill in lack of the levee between Kuhrt and Buena Vista-streets bridges in order to bring the bank up to its former grade.

In protest of B. Chadsey against the proposed grading of Hancock street south of Wilney avenue a majority of the frontage is represented.

In protest No. 745 of Hammett Reservoir, against the proposed grading of Bonsall avenue, I have to report as follows: The total frontage is 2632.3. Total in protest whose names appear on the assessment role, 1109.2.

On motion further proceedings in the grading of Bonsall avenue were ordered stopped. The ordinance declaring intention of paving Broadway at the intersection of the alley below Fifth street was referred to the Board of Public Works. The remainder of the report was adopted.

The report of the City Attorney was read and adopted. It was as follows:

The ordinance annulling the contract between the city and the Citizens' Water Company was passed. The matter of the Hancock road was referred to the Land Committee.

The Zanja Committee then made the following report: "On petition No. 734 your committee find a bond approved, a contract entered into and signed by the Mayor, W. H. Workman, as ordered by the Council of March, 1887. We recommend that the matter be referred to the City Attorney and the City Engineer." The report was adopted.

The Land Committee reported against the leasing of any land by the

city, and the report was adopted. The same committee reported advising that the question of the title of the city to the Arroyo tract be settled as soon as possible. This was adopted.

An invitation from the Park Commission to the Council to visit Westlake Park and take a ride in the boats next Monday evening was read and accepted.

A longer message from the Mayor, in which he requested to sign the contract for replacing the sheet-iron pipe leading to the Wool

WORK OF CONGRESS.

Sherman's Plan For Reciprocity With Canada.

Two Senators Who Wanted to Observe Labor Day.

The Tariff Bill Taken Up and the Wool Schedule Disposed Of.

Charges Against a Member of the Committee That is Investigating the Pension Bureau—Bills Passed, Etc.

By Telegraph to The Times.

WASHINGTON (D. C.) Sept. 1.—[By the Associated Press.] Senate—In the Senate Mr. Sherman gave notice of an amendment which he proposed to offer to the Tariff Bill, looking toward reciprocity with Canada, in coal, and toward "extending trade relations between Canada and the United States."

Messrs. Blair and Hoar wanted to let the Tariff Bill go over, as it was Labor day, and "do something for labor" by considering the labor bills.

Mr. Aldrich thought Messrs. Blair and Hoar were inclined to bungle, whereupon Mr. Blair characterized Mr. Aldrich as the "representative of monopoly."

The presiding officer called Mr. Blair to order for unparliamentary language, and the Tariff Bill was taken up, Mr. Aldrich objecting to its postponement. The pending question was the Finance Committee's amendment to the woolen schedule. It increased the duty per pound on wool and woolen yarns from twice to two and a half times the duty imposed on unwashed wool of the first class.

Mr. Paddock said he would be glad to follow the majority of the Finance Committee, but he regretted, he could not see his way clearly to it as to all sections. The agricultural West never favored high protective duties, but did favor sufficient protection to cover the difference in wages. So long as high tariff was needed to keep the wheel of industry in motion it had been unanimously supported and properly defended, but the sentiment was growing and the belief was becoming a fixed conviction in the West at least, as to some of the protective industries that the decreased cost of production should now be met by greater decreases of duties than the manufacturers had yet been willing to accept.

He (Mr. Paddock) would reduce the duties on the necessities of life to the lowest point consistent with the maintenance of home industries. The bill as reported, while much improved, over his bill, was something of a disappointment. He was certain that all who were favored most directly by the maintenance of a high tariff would be better satisfied with the bill on line laid down by the committee than any other class. He believed in free sugar, but believed it should be secured through some plan of reciprocity as indicated by Blaine and formulated by the Finance Committee, but whatever might be done in that respect if a liberal bounty to the home producer of sugar were assured for 15 years there would be no occasion whatever thereafter for the importation of a single pound of sugar into the United States. He would treat the proposed plate industry in this way. He felt certain it was the part of wisdom and justice to adopt the bounty policy rather than increased duties.

After a long discussion the committee amendments were agreed to, 26 to 18.

The next paragraph related to wool or worsted clothes, knit fabrics, etc.

The committee reported an amendment increasing the duty from twice to three times the duty per pound on unwashed wool of the first class.

Agreed to.

On motion of Mr. Carlisle the word "shawl" was inserted after the words "woolen or worsted clothes."

Finally the wool schedule was completed and Mr. Vance offered as an additional section an amendment, of which he heretofore gave notice, allowing a reduction of duty on goods purchased with the proceeds of American farm products sold in foreign country. He will ask for an evening session tomorrow in which to address the Senate.

Sched. L., (relating to silk and silk goods,) was taken up and the committee amendments were agreed to; also an amendment by Aldrich striking out of paragraph 392, the words "spun silk" and adding "spun silk in skeins or cops or on beans, 35 per cent ad valorem."

Mr. Aldrich stated that the sugar schedule would be next taken up.

The conference report on the bill relating to collisions at sea, was agreed to, and the Senate adjourned.

House.—Mr. Stockbridge of Maryland moved to suspend the rules and pass the bill providing for Government inspection of the coal mines in the Territories. Agreed to.

Mr. Cooper of Indiana, rising to a question of privilege, stated that one of the charges in the resolution offered by him for investigation of the Commissioner of Pensions, was that the Commissioner was selling stock in a refrigerating company to employees of the Pension Office. Today he learned that one of the members of the investigating committee, Representative M. L. Smyer of Ohio, was one of the stockholders. Mr. Cooper therefore offered a resolution discharging Mr. Smyer from the committee.

Mr. Smyer said he had no intimation he was going to be appointed on the committee until the announcement was made by the Speaker. As a member of the committee, he entered upon the discharge of his duty and had done it faithfully and well. He did own some of the stock, but that fact in no manner could affect the integrity or honor of an honest man.

Mr. Smyer felt that there was nothing in the charge against Gen. Raum in any way affecting him, but in order to satisfy the other side of the House and the country, in duty to himself he most respectfully asked to be relieved from further service on the committee. The request was granted, and the Speaker stated that when he appointed the committee he had no knowledge of any relation between the gentleman from Ohio and the company referred to. The Chair had made the appointment from the Committee on Pensions and on Invalid Pensions because he thought it would facilitate the disposal of the matter to have gentlemen serving on the committee who had some knowledge of the Pension Office.

On motion of Mr. Chipman of Michigan, the Senate bill was passed, extending the criminal jurisdiction of the Circuit and District Courts to the Great Lakes and their connecting waters.

Mr. Perkins of Kansas, moved to suspend the rules and pass the bill to ratify and confirm the agreements with

the Sac and Fox and Iowa tribes of Indians in Oklahoma, and after explanation by Messrs. Perkins and Peet, it passed.

Adjourned.

THE CONGRESSIONAL FIGHT.

What Bowers Says—Gossip on the Street.

The seat of war in the Congressional fight was yesterday transferred to this city for one day only. All three of the candidates, Rowell, Lindley and Bowers, were in Los Angeles, and through most of the day could be seen in the lobby of the Nadeau or in the vicinity of that hotel.

Dr. Rowell arrived in the morning and spent the day in the city. In the evening he set out in the direction of Pasadena, where he has some friends that he wished to visit. Senator Bowers remained at the hotel over night.

"I expect to leave tomorrow for the Times reporter last evening, 'but I am not very certain about my movements these days; I get switched about in a very confusing style.'

When asked about the situation, Senator Bowers said that as near as he could make out, it had not changed much since the struggle at Fresno. "However," he added, "I do not pretend to know much about the affair myself. I am not so well informed as my friends."

The evening train from San Diego brought Jas. L. Copeland, District Attorney of that county, and one of Bowers' strongest supporters. Wm. Collier of San Diego is also at the Nadeau. Most of the San Diego delegates are expected up tomorrow.

The convention meets Thursday afternoon. Many of the Los Angeles delegates will leave tomorrow afternoon and spend the night at Ventura. The others will go up Thursday morning, the train arriving in ample time to admit of their being present at the opening of the convention at 2 o'clock.

The Los Angeles delegation will hold a caucus this afternoon at 3 o'clock, at which time a better idea can be obtained of who will go and who vote by proxy. A large number of those who were represented at Fresno by proxy, have expressed a determination to attend at Ventura in person. This, it is expected, will cause a material difference in the result of the ballot.

Yesterday evening there were several groups on the sidewalk in front of the Nadeau. In one of these Senator Bowers was surrounded by his friends, and the others were largely made up of Lindley men. The latter are firm and hopeful, but the same statement can be made with equal propriety of the supporters of the other two candidates, especially of Rowell's.

None of the delegates appear to cherish the idea that new men will be sprung on the convention. They say that it is a matter of sections rather than men, and that a change of candidates will not effect the situation. There appears to be universal good feeling in the fight and a general determination is expressed to work for the candidate who may finally be selected, and to stand by the State ticket, whatever happens.

ADMISSION DAY.

Arranging for the Celebration in this City.

Admission day is fast drawing near, and the preparations for its appropriate observance in this city are approaching completion. Yesterday afternoon the Ladies' Annex of the Chamber of Commerce took charge of the selection and costuming of a young lady to represent Los Angeles in the tableau "Southern California and Her Cities and Towns." Outside towns

which may not have time to correspond with the committee regarding a representative, will have a position assigned them in the tableau, if the young lady who is to portray their merits will report at the Pavilion in this city on the morning of the 8th inst., between 9 and 12 o'clock.

Both the Santa Fe and Southern Pacific railroads have made special rates to this city in honor of the celebration. The Santa Fe will sell tickets from all points in Southern California, and the Southern Pacific from all points south of Newhall, good coming to this city on either the 8th or 9th inst., and returning on the 10th, for one fare and a third the round trip.

They will also advertise the entertainment at every station on their respective roads, so that a grand inpouring of people from Southern California may be expected at this celebration of California's birthday.

THE FRESNO FIGHT.

More Comments on the Congressional Situation.

JUST AFTER THE BATTLE, MAMA.

Some Facts That are Rather Mixed and Opinions That are Still More So—A Stock-ton View.

Santa Barbara Press.

The Santa Barbara delegation occupied a consistent position throughout, and at all times cast the vote of the county as a unit. The first twenty-six votes were given for Senator Bowers of San Diego. It then appeared that his strength was not growing and the chances of his nomination being as remote as ever. Santa Barbara, after fair notice given, changed to Dr. Rowell, of Fresno, and stood by him for thirty consecutive ballots. Three more ballots were then given to Bowers in the hopes of effecting a change, but as no nomination was secured, the last vote was given to Mr. Lindley, of Los Angeles, in the views of breaking the deadlock, but it was ineffectual.

HOPEFUL SAN DIEGO.

[San Diego, Aug. 30.]

J. L. Copeland, on whose motion the adjournment was made, was seen this morning and asked to explain why the fight was not kept up.

"Well, we had taken sixty ballots, and the delegates were worn out. The weather was hot, and some of the delegates were not used to that kind of work and they couldn't stand it very well. Chester Rowell, the third candidate, is a Fresno man, and the convention was being held in his home. Under those circumstances, of course, he had all the support of his townsmen. The convention was attended by a big crowd of spectators, most of whom were personal friends and acquaintances of the Rowell delegates. The effect was to hold them solidly for Rowell. They would not yield. But I came to the conclusion that if we could transfer the convention to some other point, where the outside Rowell influence would not be so strong, we would get some of those Rowell delegates for Bowers. That's why I made the motion, and I think it was a good move."

"You still believe you can nominate Bowers?"

"I am sure of it. Bowers will gain strength from the first ballot at Ventura. All the delegates that have voted for him will stay by him, you can depend on that, and he will get both Rowell and Lindley delegates. Lindley's support is not by any means sold."

A STOCKTON VIEW—RATHER MIXED.

[Stockton Mail.]

The Sixth District Republican Convention, which has been in session for the last few days at Fresno, having failed to nominate a candidate after sixty ballots, had adjourned to meet at San Buenaventura on the 4th proximo. There are three candidates—Dr. Rowell of Fresno, ex-State Senator Bowers of San Diego and Hervey Lindley of Los Angeles. The fight thus far has been very bitter, the friends of neither candidate being willing to yield. If the fair fight is to be done, Dr. Rowell should have the nomination, but he is likely to be chiseled out of it. It appears that at the Sacramento convention Fresno threw her vote to Lindley on the promise that Los Angeles would support Dr. Rowell for the nomination for Congress. But Los Angeles refuses to deliver the goods. It seems that after the adjournment of the Sacramento convention, a new set of delegates was selected from Los Angeles to the Congressional Convention, who do not feel themselves bound by the contract made at Sacramento. At any rate, thus far Dr. Rowell has not received the support that was promised him. The fact of the matter is, the great southern county has repudiated her bargain. The only safe way out of the difficulty that the Mail can suggest is to give the nomination to Morrow—maybe he would take it.

MORE OR LESS INCORRECT.

[San Diego Sun, Aug. 30.]

When the San Diego delegation attended the State Convention at Sacramento they earned the reputation of being the most harmonious workers at the convention, and the reputation they confirmed by their work at the Congress Convention at Fresno. Prior to the convention Lindley and his supporters did not wish to conceal the fact that they proposed a bitter fight against the nomination of Bowers, while Rowell's friends seemed to favor Lindley rather than Bowers. This was the condition of things when the convention met, and there were many signs that a combination between Rowell and Lindley would be made for the defeat of Bowers. But, fortunately for San Diego's candidate, Lindley and his friends alienated themselves from Fresno on the first ballot, by the Los Angeles delegation only casting four votes for Fresno's candidate. This was a vital mistake for the supporters of Lindley to make, for had they stood faithfully by Fresno with thirteen votes, it is almost certain that if a combination had to be made that Rowell's supporters would have gone to Lindley. In refusing Fresno and San Diego the support they earned by their votes for the nomination of Markham, a feeling of friendship at once sprang itself between these counties, and Fresno threw off from Lindley and joined Bowers. This fact was shown about the tenth ballot, when the Lindley supporters worked up a break in his favor, and fearing that it promised to go through, Dr. Rowell instructed the chairman of the Fresno delegation to give their votes to Bowers, thus giving him the nomination. With this break Lindley tested his full strength, which gave him 76, while Bowers, on several occasions, balloted 82, Rowell at no time receiving more than 66.

[At no time were such instructions given in the Fresno delegation as above stated. The supporters of Rowell never contemplated a break to either Bowers or Lindley. Their motto was, "Stand fast!" The above figures of the Sun are not all correct.—ED. TIMES.]

DR. ROWELL Y LOS OTROS.

Pertinent Views of Various Correspondents.

Following are some of the letters received by THE TIMES:

MARK TWAIN AND MAKE A NOTE ON IT.

LOS ANGELES, Sept. 1.—[To the Editor of THE TIMES.] The claim that Mr. Hervey Lindley or any other citizen of Los Angeles is needed to bolster up the ticket of Col. Markham in his own home county is one which the whole loyal Republican party should rise to refute. H. H. Markham will carry the solid vote of his party here, and, as he did in 1884, win a great host from the Democrats. He needs no additional ornament. If the nominators of Mr. Lindley had kept this point out

of their speeches, and out of the Friday night's set of resolutions, they would have saved considerable trouble ahead.

VICE-PRESIDENT.

DR. ROWELL IN THE DEMOCRATIC STRONGHOLD.

PASADENA, Sept. 1.—[To the Editor of THE TIMES.] I wish to ask if San Diego and her satellites would have stepped out of Southern California for her choice for Governor, and come out for Morrow, had Mr. Bowers been in or out of the question? This nomination, if made, will be full of calamity to the Republican ticket, and will be made use of by the Democrats to the fullest extent. The case with the northern counties of this district is very different. It is natural that they should go for a San Francisco candidate; that is their market and there is their acquaintance. Only the personal influence and popularity of Dr. Rowell wheeled these counties into line for Markham, and should this candidate be honored with the nomination, he can wield an enormous influence in those doubtful counties in the coming election. We can ill afford to lose the influence his nomination would produce in those counties where Markham is not so well known.

ALL-AROUND REPUBLICAN.

POMONA, Sept. 1.—[To the Editor of THE TIMES.] Certainly no one who knows Chester Rowell could doubt his ability to fully understand and ably represent the "capacities, the capital and the resources" of the metropolis of his district; and it stands to reason that his representations would command far more respect than would those of one who might be suspected of representing Los Angeles to the exclusion of all other demands of the district. And the same holds good of San Diego. He, above all the other candidates, is untrammeled and untainted by local prejudices, and this fact has been cheerfully and generously acknowledged by even his opponents. With just as good and probably better chances of promoting the interests of this section, Southern California has an opportunity to absolve herself from the all too apparent porcine tendency which gains her no friends or respect in other parts of the State, and which may injure her future.

FAIR SHAKE.

OBJECTIONS TO MR. LINDLEY.

LOS ANGELES, Sept. 1.—[Editor of THE TIMES.] The "Lindley boomers" have labored assiduously to spread the idea that the Republicans of Los Angeles county are wildly enthusiastic for the nomination of Mr. Hervey Lindley for Congress.

The cold-blooded fact is that, outside of Mr. Lindley's personal friends, there are but few Republicans who believe that it would be wise or expedient to make him the nominee. That he has a good many friends is admitted, but that his friends comprise a majority of the Republicans of this county is a wildly-ridiculous idea, a thought that is clearly born of the wish. A correspondent of this morning's TIMES says that Lindley had two-thirds of the delegates in the County Convention two months ago. Possibly so, as his partisans had been hard at work to secure his support by that convention, and no work had been done on the other side, but it is safe to say that had an attempt been made to instruct delegates for Lindley, it would have been a dismal failure.

A mistake was made when the Los Angeles convention agreed to "go for everything in sight," and the nomination of Markham was seriously jeopardized in the start by this greedy, selfish, short-sighted policy. And now that Markham is nominated, the persistence in the demand for another candidate from Los Angeles is dangerous in the extreme. That delegates stick to Mr. Lindley because of personal admiration for their candidate, may be creditable to a boyish, Quixotic impulse in their natures, but it is an impeachment of their sound sense and political judgment. These delegates were not "instructed," and, therefore, were sent to the Congress Convention to act according to their good judgment, for the good of the people and of the party. In sticking to Mr. Lindley under the circumstances, they have not shown that they possess good judgment, nor that they are anxious to do the thing best for the people at large, nor that they are working for the success of the Republican party in this district. If he is nominated, his election is far from being a foregone conclusion, notwithstanding the magnificent victory of two years ago.

REPUBLICAN.

MR. BOWERS AS A BOLTER.

The Official Record from His Own County.

For the purpose of putting the matter of Senator Bowers's attitude towards his party, in the past, in its true light, the annexed authoritative publication is now reproduced in THE TIMES, without comment. The following appeared in the San Diego Sun of April 25, 1889:

RESOLUTIONS OFFICIALLY SIGNED.

A COMMUNICATION FROM THE CITY CENTRAL COMMITTEE ON THE BOWERS MATTER.

SAN DIEGO, April 25, 1889.

EDITOR SUN: Inasmuch as Mr. Bowers, in his letter to the Union this morning, seems to question the authenticity of the statement of facts and resolutions recently published, we herewith present an extract from an article in the San Diego Union of April 23, 1889. The following statement and resolutions offered by Leonard Goodwin after a full discussion were adopted:

The Republican Central Committee of the City of San Diego, in the discharge of its duty to the party, feels called upon to present the Republicans of the city the following statements of facts:

It is believed that the city had attained a population of 100,000, important for the interests of the party that a local organization be maintained as distinct from the county organization, the delegates in the last County Convention appointed such a Republican City Central Committee.

Second—That said committee in view of an election for city officers, called by the City Council, at the first instant, issued a regular call for delegates to elect delegates to a city convention to nominate candidates for the several offices to be filled at that election.

Third—That said call provided for holding the primaries according to the law of the State of California, in such cases aside and provided to the end that the entire election of the will of the party might be assured.

Fourth—That said primaries were held on the 19th day of March, 1889, and were conducted in such a manner as to give the fullest and freest opportunity to all who desired to participate therein.

That said delegates elected at said primaries were representative men commanding the confidence of their party and the community.

Sixth—That on the 23d day of March, 1889, said delegates met in convention at the D Street Theater in the city of San Diego, and proceeded in a regular way to nominate candidates for the city offices at the election then in view.

Seventh—That the proceedings of said convention were characterized in the highest degree by regularity and decorum, and the ticket nominated was entitled to the

confidence of the party.

MENTALLY UNSOUND.

Geo. Miller Before Judge Shaw and a Commission.

MERCHANTS' FALL CAMPAIGN.

Some Hints About Advertising—August's Mail News—Notes and Comment—Briefs and Personals.

George Miller, who was taken into custody here on Saturday on account of his mental condition, which caused him to threaten to shoot a Carlton Hotel waitress because he imagined she wanted to poison him, was examined as to his sanity yesterday afternoon before Judge Shaw and a commission.

Deputy Slater took to Los Angeles as witnesses, Dr. McAllister and Mrs. Manner, who has witnessed some of Miller's mental vagaries, and the waitress mentioned. All were examined and the testimony elicited was substantially the same as that published in Sunday's issue of THE TIMES. The result of the investigation appears on another page.

THE FALL CAMPAIGN.

The Merchants' Time to Capture the Trade.

The fall campaign is opening up for the business man as well as the politician. With the advent of the fall trade, merchants will begin to consider the most attractive method of bringing their wares to the notice of the public. It is surprising how little attention some business men pay to the manner of letting the public know what bargains they have to offer.

Houses that do a great deal of advertising have one person whose sole duty it is to attend to that branch of the business. It is a business which demands thoroughness, industry and tact. The live advertiser must keep up with the procession. Readers nowadays demand variety in what they read, whether it be in their literary matter, their news, or their advertisements. Monotony tires them. Every merchant can with profit study the methods employed by large advertisers in attracting attention to their wares. It is not necessary that the style of any one of them be copied literally, but points can be secured from each and all which will be of assistance in working up a series of remunerative announcements. Each advertiser should use suggestions that come in his way for all there is in them, adapting them to his own particular needs. In this connection we would say to the business men of Pasadena that THE TIMES is the paper to advertise in. Its local subscription list is far ahead of any of its would-be rivals, which means it is read by the most people in town and the surrounding districts, to say nothing of its army of subscribers elsewhere. The Pasadena paper occupies a prominent position in the paper and a readable advertisement inserted in its columns commands immediate attention and brings quick returns. It will pay you to advertise, and this is the time of year to begin.

NOTES AND COMMENTS.

The ladies are coming nobly to the aid of Company B, which insures the success of the festivities.

If some people in town could see themselves as others see them they would pull down the blinds.

The overlands of late seem to run on the theory of never doing today what you can put off until tomorrow.

The mail carriers were not idle during the hot month of August, as is shown by the figures elsewhere.

The chances are in favor of the Markham Club being thoroughly organized before the close of the week.

The merchants were busy yesterday making collections, a habit they are accustomed to pursue on the first of each month. We are glad to state that most of the demands were promptly met. The local money market is not as tight as it was several months ago.

For some reason some people are down on high school girls just as others delight to heap opprobrious epithets on any man who happens to have successfully completed a college course. Yesterday on a street car were noticed two giddy girls. They were giggling and making silly remarks about the few other passengers. Some gave them scowls, others pitying looks. "High school girls," remarked one of two gentlemen, but he was mistaken. "The square of the hypotenuse," English literature, and the higher mathematics leave no margin for flippancy, and consequently most girls out of the high school are serious and thoughtful.

AUGUST'S MAIL.

Work of the Letter Carriers During a Warm Month.

The amount of mail matter handled during the month of August is shown by the postmaster's report to be as follows:

DELIVERED.
Registered letters 74
Letters 20,230
Postal cards 2,717
Second, third and fourth-class matter 14,162

Total amount delivered 41,183
COLLECTED.
Local letters 1,176
Mail letters 13,420
Local postals 532
Mail postals 1,354
Second, third and fourth-class matter 2,116

Total amount collected 17,618
Total amount handled 58,501

BREVITIES.

There are several new bicycles in town.

A guitar was chanced off at Decker's emporium last night.

E. Boone is president of the Colored Republican Club of Pasadena.

A gayly bedecked advertising wagon which rumbled into town about noon

yesterday drawn by four mules, attracted considerable attention.

Yesterday's overland arrived early this morning, nearly half a day late. Considerable money is yet needed to defray the expenses of Tuesday's exercises.

James D. Spalding has purchased a house and lot on Howard street for \$1,600.

Company B practiced skirmish drill yesterday evening. First Lieut. Hamilton in command.

Company B's Admission day committee met yesterday evening in the armory, prior to the drill.

The local Republican Club will visit Los Angeles this evening to participate in the mass meeting.

Dr. Howell of Fresno was in town yesterday, looking after his interests in the coming Congressional fight.

Mrs. Ruth Burman Ridges resides today for Oskaloosa, Ia., where she goes to represent the Friends of California at the yearly church meeting.

The electric lighting apparatus will be put in the new library building today. The building will be complete inside and out by the end of the week.

An enjoyable ice cream social and literary entertainment was held yesterday evening in the Olivewood Church. There was a good attendance and the profits were gratifying.

A span of horses attached to one of Wiley & Greely's buses cut up high jinks on Colorado street yesterday. The animals were gotten under control before much damage had been done.

John S. Cox returned from Long Beach yesterday. Last Friday his 7-year-old son Harold had the misfortune to break his leg by colliding with a moving frame swing.

PERSONALS.

William Bell is back from Catalina. Frank J. Polley returned yesterday from Catalina.

C. M. Davis and sister left on yesterday's overland for Colorado.

W. T. Vore and R. Williams, with their families, went to Catalina yesterday to remain a week on the island in a cottage they have rented.

J. W. and Robt. Vandervoort are among the luckiest fishers at Catalina. A few mornings ago they pulled in sixteen good-sized yellow-tail.

Conductor Ed Haggan of the Cross road has been presented with a handsome nickel-plated ticket punch, with his name engraved on it, by Fred McNally.

THE CENTER OF THE WORLD.

Points on the Earth's Surface Claimed to Be the Terminal of the Globe's Axis.

For several centuries different cities in the Orient have contended with each other for the honor of being recognized as the mid spot of our planet. Quite recently a London geographer issued an elaborate work in which he tries to prove the British metropolis to be the center of the land hemispheres. Jerusalem and Delphi; notwithstanding the fact that neither of them is situated on the equator, have for ages been the two great rivals in this mid spot discussion. William Simpson of the London Society for Exploring Palestine, tells us that Herr Schick has sent home drawings of the Jerusalem center of the world.

It exists, of course, in the Greek Church of the Holy Sepulcher, not in the Latin church.

The spot is identified less by physical science than by prophecy. It is written in the Psalms, "God is my king of old, working salvation in the midst of the earth."

This can only refer to the scenes of the passion and of the holy sepulcher, and the midst of the earth must therefore be found where the holy sepulcher is considered to be by the Greeks. The belief that the center is there or thereabouts is ancient, for it occurs in a work by St. Ephrem, quoted by John Gregory in reference to Noah's prayer. Here St. Ephrem says that Adam was buried "in the middle of the earth."

Homer calls Cypso's Island "the navel of the world, the center of all the seas."

In Ascalon a certain round stone in the temple of Delphi is the "navel" or center of the earth, and here does Orestes take refuge when pursued by the Eumenides.

Pindar has anticipated Ascalon here, and after an era Pausanias (like Herr Schick) had the pleasure of seeing the only genuine central hub at Delphi. "It is made," he says, "of white stone, smooth and polished, and is the middle point of the whole world." Delos, as well as Delphi, claims to be one of the sacred places perforated by the earth's axle, and probably other cities, in all ages, have looked upon their sacred places as deserving of the same distinction. There can be no closer analogy, however, than that which exists between the hall of stone in the Church of the Holy Sepulcher at Jerusalem and the round, white stone at Delphi—St. Louis Republic.

FOR OFFICE SEEKERS.

The following story, which may be true, but more probably is not, is related of President Lincoln: A local politician went to Washington seeking an office, but at a fortnight came back without it. "What was the trouble?" asked one of his friends.

"Didn't you see the president?" "Yes, of course," answered the politician. "Well, then, why didn't you get the office?"

"Well," said the disappointed applicant, "we went in and stated our errand, and they said, 'Gentlemen, I am sorry that I have no office for Mr. —, but if I can't give you that I can tell you a story.' Then he went on:

"Once there was a certain king who kept an astrologer to forewarn him of coming events, and especially to tell him whether it was going to rain when he wished to go on hunting expeditions. One day he had started for the forest with his train of lords and ladies when he met a farmer."

"Good morning, farmer," said the king.

"Good morning, king," said the farmer.

"Where are you folks going?"

"Hunting," said the king.

"Hunting! You'll all get wet," said the farmer.

"Good morning, king," said the farmer.

"The king trusted his astrologer and kept on, but at midday there came up a tremendous rain that drenched the king and all his party.

"On getting back to the palace the king had the astrologer decapitated, and sent for the farmer to take his place.

"Lew's sake," said the farmer when he arrived, "it ain't me that knows when it's going to rain, it's my sonny. When it's going to be fair weather he always carries his ears forward, so. Where's going to rain he puts 'em backward, so."

"Make the donkey the court astrologer!" shouted the king.

"It was done, but the king always declared that appointment was the greatest mistake he ever made in his life."

"Mr. Lincoln stopped there," said the office seeker. "Why did he call it a mistake?" we asked him. "Didn't the donkey do his duty?"

"Yes," said the president, "but after that every donkey in the country got an office," —Youth's Companion.

ABOUT THE CITY.

Ladies Interested in Admission Day Exercises.

FOUR COMMITTEES APPOINTED

A LUNCHEON Will be Served the Soldiers — Company B Wants More Equipments — A Drunken Brawl.

It is evident that the ladies of town are interested in the success of the coming Admission day exercises.

Yesterday afternoon in response to invitations sent out by Company B, a large number of married women and young ladies assembled in the Carlton Hotel parlors to formulate plans for providing luncheon for the State National Guardsmen who will be the guests of Company B on Tuesday next.

After the subject had been discussed at length, the following committees were appointed: Executive Committee, to have general oversight of the work; Soliciting Committee, to canvass the town for provisions or cash subscriptions; Table Committee, to have immediate charge of serving the luncheon; and the Floral Committee, who will attend to the decorations. The several committees will begin actual work at once and will report at a meeting to be held in the Carlton parlors Saturday afternoon at 2 o'clock.

The luncheon will be served at noon Tuesday, either in the armory or the vestry of the Universalist Church. All visiting soldiers and the members of Company B will be admitted to the feed.

WANT FULL EQUIPMENTS.

Correspondence Concerning Belts and Cartridge Boxes.

Some days ago First Lieut. Hamilton of Company B addressed an unofficial communication to R. H. Orton, Adjutant-General of the State at Sacramento, stating that the company's equipment is not complete and asking that belts, cartridge boxes, etc., be forwarded, if possible, in time for the exercises on Tuesday.

Conductor Ed Haggan of the Cross road has been presented with a handsome nickel-plated ticket punch, with his name engraved on it, by Fred McNally.

Yesterdays on the Earth's Surface Claimed to Be the Terminal of the Globe's Axis.

For several centuries different cities in the Orient have contended with each other for the honor of being recognized as the mid spot of our planet. Quite recently a London geographer issued an elaborate work in which he tries to prove the British metropolis to be the center of the land hemispheres. Jerusalem and Delphi; notwithstanding the fact that neither of them is situated on the equator, have for ages been the two great rivals in this mid spot discussion. William Simpson of the London Society for Exploring Palestine, tells us that Herr Schick has sent home drawings of the Jerusalem center of the world.

It exists, of course, in the Greek Church of the Holy Sepulcher, not in the Latin church.

The spot is identified less by physical science than by prophecy. It is written in the Psalms, "God is my king of old, working salvation in the midst of the earth."

This can only refer to the scenes of the passion and of the holy sepulcher, and the midst of the earth must therefore be found where the holy sepulcher is considered to be by the Greeks. The belief that the center is there or thereabouts is ancient, for it occurs in a work by St. Ephrem, quoted by John Gregory in reference to Noah's prayer. Here St. Ephrem says that Adam was buried "in the middle of the earth."

Homer calls Cypso's Island "the navel of the world, the center of all the seas."

In Ascalon a certain round stone in the temple of Delphi is the "navel" or center of the earth, and here does Orestes take refuge when pursued by the Eumenides.

Pindar has anticipated Ascalon here, and after an era Pausanias (like Herr Schick) had the pleasure of seeing the only genuine central hub at Delphi. "It is made," he says, "of white stone, smooth and polished, and is the middle point of the whole world." Delos, as well as Delphi, claims to be one of the sacred places perforated by the earth's axle, and probably other cities, in all ages, have looked upon their sacred places as deserving of the same distinction. There can be no closer analogy, however, than that which exists between the hall of stone in the Church of the Holy Sepulcher at Jerusalem and the round, white stone at Delphi—St. Louis Republic.

Real-estate Transfers.

THE PEOPLE'S STORE.

YESTERDAY'S GREAT SALE TO BE CONTINUED.

Some Low Prices in the Clothing Department—Shoes for Children, Misses, and Men—Notions and Drugs.

PEOPLE'S STORE, Tuesday, Sept. 2, 1890.

It was certainly very gratifying to us to see the multitude of people which took advantage of the great bargains we offered them yesterday. See how everything was appreciated we have decided to continue it for one day longer. We have added many new things, amongst which you will find displayed in our window a truly magnificent line of French Dress Parasoles, which we just received, which compose the very latest effects, and which we place on sale today at 10 cents a yard. It is not often that you get such bargains as we are offering, and therefore it well repays you to take advantage of this opportunity.

Clothing Department.

Heavy cotton Sox \$1.3c a pair, worth 15c. Men's lawn Ties 9c a dozen, worth 25c. Men's Percale Ties 9c a dozen, worth 25c. Ladies' Teek Scarfs 25c, the very latest, worth 50c.

Flannelette Outing Shirts 35c, the greatest bargain ever seen, worth 65c.

Summer Coats and Vests 49c, just the thing for office or store wear, worth 75c.

Boys' Cheviot Suits \$1.95, a handsome, well-made, strong and durable suit, one which gives the best of satisfaction, marked down from \$3.75.

Men's Suits \$6.95, a dark mixed Cheviot with a faint hair line of black, a perfect fitting suit, cut in the most approved style, will answer either for business or dress, sold all over for \$12.

Men's Suits \$9.49, a handsome gray tweed, a well-made suit, which will not fade, and a suit which we have placed on special for today only, our regular price \$15.

Men's Suits \$11.75; this is decidedly one of the most dressy suits ever manufactured, and which is noted for its perfect fit; it is equal to any custom made suit for which you pay \$25.

Shoe Department.

Infants' Shoes 25c a pair, neat Oxford lace or strap sandal, a perfect little beauty, and worth 50c.

Children's dongo kid Shoes 58c a pair, made with soft leather tip, spring heel, sizes 5 to 11, a good wearing and very neat appearing shoe, worth \$1.00.

Misses' low-cut russet Shoes 98c, a handsomely made shoe, with spring heel and French toes, very soft and very easy to the foot, very neat and worth 50c.

Children's pebble-goat Shoes \$1.19 a pair, made with spring heel and worked button holes, solid leather throughout, sizes 8 to 11, no better shoe made for wear and comfort, worth \$2.25.

Misses' genuine dongo kid Shoes \$1.39, made with spring heels and worked button holes, a good looking and comfortable shoe, of the handsomest shoes in the market, and actually worth \$2.25.

Ladies' russet or Oxford Ties 98c a pair; these come in large sizes only and for that reason we have marked them down from \$1.75 and \$2.00 a pair.

Men's ear Shoes \$1.98 a pair, button, lace or congress, plain or tipped toes, for wear or for dress, no equal, also very dressy, worth \$2.75.

Ladies' fine soft dongo kid Shoes \$2.45 a pair; we have all widths from B to E, in common sense or opera lasts; this is truly one of the finest lines of shoes you have ever seen and reduced from \$3.25.

Hat Department.

Men's silk Caps, 25c. Very handy for office smoking room or train, worth 50c.

Men's straw Hat \$2.00, a good hat, either for office or dress, and worth 50c.

Men's Pullman Crushers, 60c, a genuine hand-made felt hat, either in blue, brown or gray; the latest fad and worth \$1.25.

Men's English Derby's, \$1.40, the latest New York blocks in flexible finished dress hats. A large assortment to select from, and if bought elsewhere would cost you \$5.00.

Dress Goods Department.

Great sale of Dress Patterns will still be continued.

Eight yards 33-inch wool Dress Goods \$1.49 the suit.

Eight yards 33-inch wool Dress Goods \$1.49 the suit.

Eight yards 33-inch wool Dress Goods \$1.49 the suit.

Underwear Department.

Ladies' Muslin Underwear 43c each. Linen Underwear 40c each.

Ladies' Muslin Underwear 40c each.

The line of ladies' muslin Underwear which we are showing at this price has no equal anywhere. There are Skirts, Chemise, Drawers, Gowns and Corset-covers, made of the best of muslin in the latest styles, neat and prettily trimmed, and which will fit all the models in the house.

It is hard to imagine how these clothes can be sold at such a price; still, nevertheless, it is a fact, and to convince yourselves come in and see them. We cannot tell how long this sale will last, but at the rate the goods are leaving our store it cannot last long.

Ladies' oil silk Bathing Caps 43c, very desirable, worth 75c.

Ladies' white Aprons 43c, perfect beauties, worth 75c.

Drug Department.

Pearl Soap, 12c each, worth 25c.
